Once upon a time... the EVE Programme.
At the very beginning, it was a great women leadership programme. Day by day, various initiatives were added for our EVE Community...

The Wise Committee is an expertise and ethics Committee. Our think tank is constantly in a reflexion/action process.

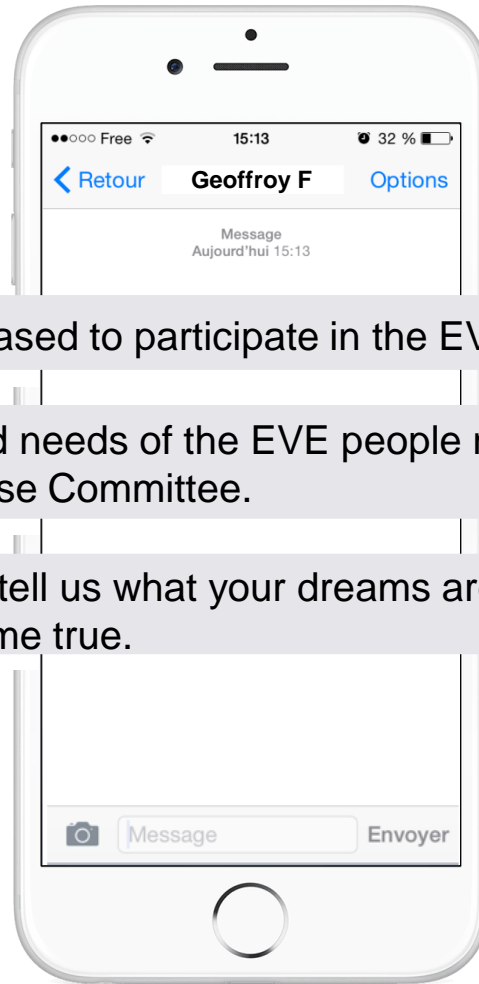

To succeed, you need openness, energy and courage.

Hi Eve !

People are touched by the EVE Programme. The issue is how can each and every one of us, keep the spirit...

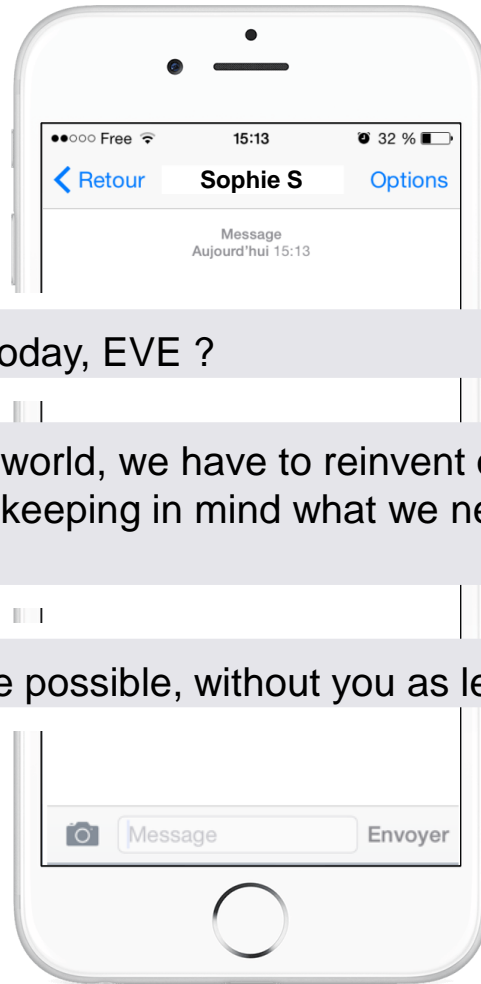

You want to commit to something? Convince yourself that it's possible : set your goals, gather people and let's do it! You will participate to change the world, no less.

I am really pleased to participate in the EVE Programme !

The hopes and needs of the EVE people must lead the work of the Wise Committee.

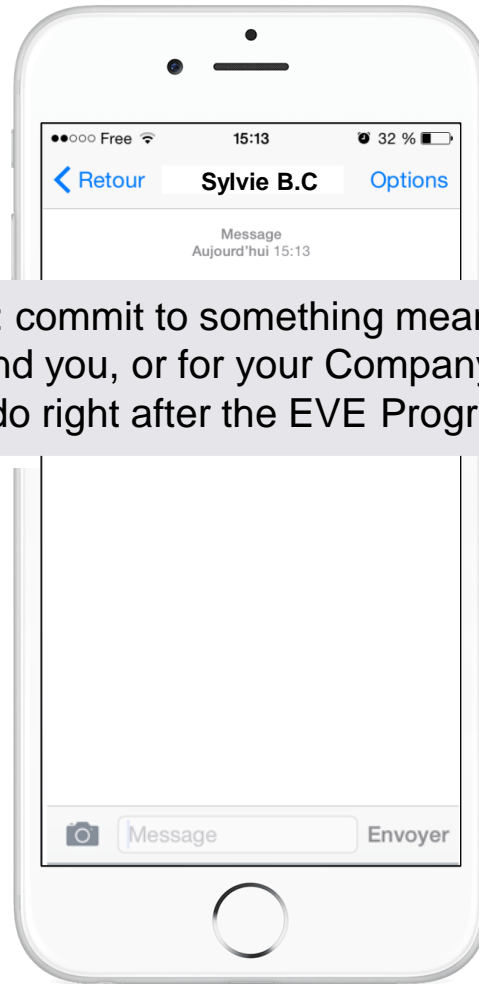

A suggestion : tell us what your dreams are, we will help make them come true.

How are you today, EVE ?

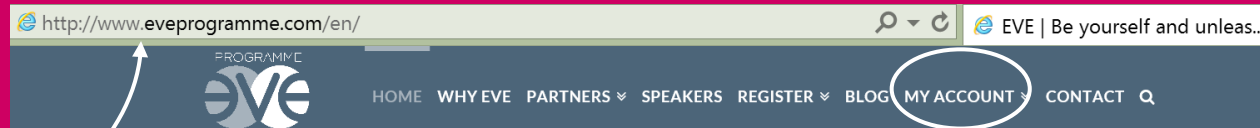

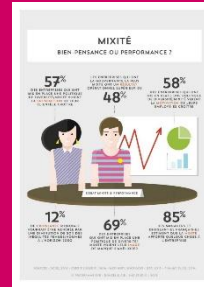

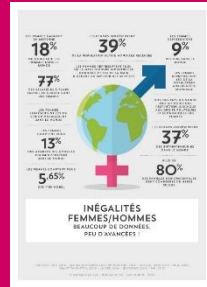

In a changing world, we have to reinvent ourselves and the way we work, keeping in mind what we need to address collectively.

Nothing will be possible, without you as leaders of change

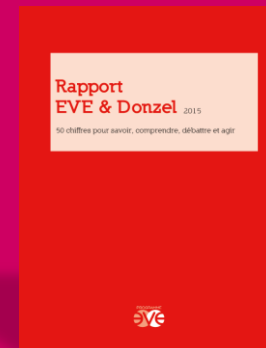

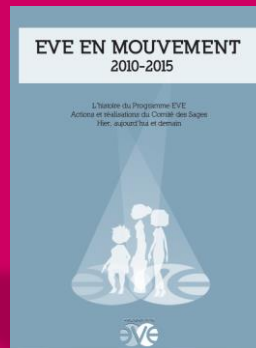

Our suggestion : commit to something meaningful for you, for the people around you, or for your Company, something that you will start to do right after the EVE Programme.
